

the **AI** Buzzzzzz

The difference between NLP, AI, ML, DL & NN

AI ARTIFICIAL INTELLIGENCE

Building systems that can do intelligent things.

NLP NATURAL LANGUAGE PROCESSING

Building systems that can understand language. A subset of AI.

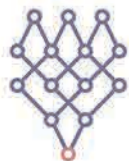

ML MACHINE LEARNING

Building systems that can learn from experience. A subset of AI.

NN NEURAL NETWORK

Biologically inspired network of Artificial Neurons.

DL DEEP LEARNING

Building systems that use Deep Neural Network on a large set of data. A subset of Machine Learning.

Intelligent Recruitment Solutions
